

Strobe® Pro

Broad Spectrum Fungicide

Strobe Pro Features

Strobe® Pro is a combination of two broad spectrum, preventative and curative fungicides with systemic properties for the control of many important turfgrass diseases. Strobe® Pro may be applied as a foliar spray in alternating spray programs or in tank mixes with other registered, turf protection products. Strobe® Pro is compatible with many commonly used fungicides, liquid fertilizers, herbicides, insecticides and biological control products.

Strobe Pro Profile

Formulation

6.0% Azoxystrobin
10.0% Propiconazole

Application Sites

golf courses, lawns and landscape areas around residential, institutional, public, commercial and industrial buildings, parks, recreational areas and athletic fields.

Comparative Brand

Syngenta Headway®

Effective Against

Foliar, stem and root diseases such as leaf and stem blights, leaf spots, patch diseases, anthracnose, fairy rings, mildews, molds and rusts of turfgrass

Packaging

2 x 1 Gallon/case

Application Rates

See label for specific uses and rates

Mode of Action

Azoxystrobin is a Group 11 fungicide. This family of actives interferes with the normal respiration of the fungus. Respiration is when the cell burns energy to do normal functions.

Propiconazole is a Group 3 fungicide. This family are known as DMI's and they prevent the cell membrane from forming.
