

IMANTS

RotoSweep & Rhea Scarifier

The RotoSweep offers efficient removal of surface debris from sports turf, including cores, grass clippings, leaves and general litter collection. Featuring a dual powered brush system, even heavy debris can be collected without any damage to the grass. The RotoSweep is tractor towed, powered from the PTO and tipped hydraulically, with the centrally positioned axles allowing tight contours to be followed. An independent floating scarifier attachment, the RHEA, can be attached in front of the RotoSweep.

Specification

Model	RotoSweep	Rhea MKII Scarifier
Working width	1.70m	1.70m
Transport width	1.90m	1.92m
Length (incl. Drawbar)	3.20m	0.50m
Height	1.45m	0.50m
Tipping height	approx 1m (depending on length of link arms)	
Hopper capacity	2.5m ³	
Number of brushes / blades	8 brush strips	72 or 144 (2 or 3mm thick)
Weight (approx)	650kg (empty)	210kg
Power requirement	30 - 50hp	
Tractor requirements	540 PTO. Double acting spool	
Operating speed	0 – 10mph (0 - 18kph)	0 – 4mph (0 – 6kph)

Campey supply market leading, innovative turf care machinery worldwide, we're continually researching new techniques and refining existing practices to help turf care professionals achieve perfection.
