

Max Amino™

Max Amino Carries All 18 Amino Acids:

Aspartic Acid	Cystine	Histidine*
Threonine*	Valine*	Lysine*
Serine*	Methionine	Arginine
Glutamic Acid	Isoleucine*	Tryptophan*
Proline	Leucine*	Glycine
Phenylalanine*	Tyrosine	Alanine

* Essential Amino Acids

Amino acids are the building blocks of proteins, which are converted by plants into new growth. Some amino acids also play a critical role in photosynthesis, the process by which carbohydrates are converted into both energy and new proteins.

Humic acid is a common treatment, but amino acids are often neglected at the expense of potential plant productivity and plant resistance to environmental stresses.

Max Amino is an organic, foliar nitrogen fertilizer with 18 L Amino acid and is derived exclusively from vegetable proteins.

Benefits

- Improves absorption through the roots, increases plant resistance to adverse conditions
- Improves color
- Odor is pleasant making it great for use in greenhouses or enclosed areas
- 4% available soluble organic nitrogen content
- Provide immediately available nitrogen and helps plants grow quickly
- 100% salt free and 100% effective use on flowers, trees, shrubs, vines and turfgrass

Guaranteed Analysis 4-1-2

Total Nitrogen (N).....	4.00%
Available Phosphorus (P2O5).....	1.00%
Soluble Potassium (K2O).....	2.00%

Derived from : Vegetable Proteins, Potassium Lactate

Application Rates

	/100m2	/hectare
Foliar Application	23.5ml – 47ml	2.35L – 4.7L
Soil Spray/ Drench	23.5ml – 93.5ml	2.35L – 9.35L
