TOOLS FOR GROWTH

9.46 Liters - Weight per 11.91 kgs

Prep & Recover is a powerful combination of highly concentrated sea plant and marine organism extracts, humates, amino acids, calcium, magnesium, complex sugars and peptides, along with key micronutrients to enhance the plant's ability to fight stress and maintain proper metabolic functions, making Prep & Recover the premier bio-nutrient product for plant health, rooting and stress reduction.

APPLICATION RECOMMENDATIONS:

Prep & Recover is a direct foliar fertilizer application. It may be tank mixed with other fertilizers or agricultural chemicals after conducting a jar test for compatibility. Always treat a small test area with any experimental blends to determine potential phytotoxicity before making general applications.

Golf Course Greens and Tees: Use 59.15–88.73 mL per 92.91 sq. meters and repeat every 7–14 days.

Fairways: Use 59.15–118.3 mL per 92.91 sq. meters and repeat monthly.

High Stress Areas: Use 88.73–177.45 mL per 92.91 sq. meters. Irrigate enough to ensure one inch of penetration into root zone. Repeat every two to four weeks, or as conditions warrant.

Annuals, Perennials and Ornamentals: spray soil and plants with a solution of 1.3–2.6 mL per liter of water. Water plants thoroughly after penetration.

Planting Trees and Shrubs: Use 2.34–4.6 liters per 378.5 liters of water. Apply as soil drench 7.5–18.93 liters per plant.

Feeding Trees and Shrubs (Injection): Use 2.34–4.6 liters per 378.5 liters of water.

Soil Drench and Transplants: Use 19.53–39.06 mL per liter of water. Thoroughly drench each area.

SHAKE WELL BEFORE USING

STORAGE INFORMATION:

Prep & Recover should be stored in a dry controlled environment between 10–30° C. Failure to follow storage guidelines may lead to crystal formation or product degradation.

For Commercial Use Only.
