9.46 L - Weight per Liter 4.26kg

APPLICATION RECOMMENDATIONS:

Renew 911 is designed exclusively for resodding, resprigging and reseeded on sod farms where disturbed soils lack the nutrients required to re-establish a healthy soil. Formulated for fast uptake by soil organisms, **Renew 911** provides a complete plant and soil nutrition package required for effective and quick grow-in applications. This product is not intended for use on food crop sites. Information regarding the contents and levels of metals in this product is available on the internet at: <http://www.aapfco.org/metals.htm>

Application Rate 2.35–7 liters per hectare mixed in a minimum of 37.85 liters of water for seeding, sprigging and general turf care.

Storage Information:

Renew 911 should be stored in a dry-controlled environment between -1.11–37.78° C. Failure to follow storage guidelines may lead to product degradation.
