4. FIRST AID MEASURES

<p>Eye: Flush eyes with water, while holding the eyelids apart. Get medical attention if irritation occurs and persists.</p> <p>Skin: Remove contaminated clothing and shoes. Flush skin thoroughly with water for several minutes. Get medical attention if irritation occurs. Launder clothing before re-use.</p> <p>Ingestion: Do not induce vomiting unless directed to do so by a medical professional. Rinse mouth with water and give one glass of water to drink. Get medical attention if symptoms develop.</p>

Inhalation: Remove victim to fresh air. Get medical attention if symptoms occur and persist.

Most Important Symptoms: May cause slight eye and skin irritation. Inhalation of dust may cause mucous membrane and respiratory irritation.

Indication of immediate medical attention/special treatment: Immediate medical attention is not required.

5. FIRE FIGHTING MEASURES

Suitable (and Unsuitable) Extinguishing Media: Use media appropriate for surrounding fire. Cool fire exposed containers and structures with water.

Specific Hazards Arising From the Chemical: Hazardous decomposition products include oxides of carbon and unknown materials.

Special Protective Equipment and Precautions for Fire-Fighters: Firefighters should wear positive pressure self-contained breathing apparatus and full protective clothing for all fires involving chemicals.

Explosion Data (sensitivity to mechanical impact or static discharge): None known.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment, and Emergency Procedures: Avoid contact with eye, skin, and clothing. Wear appropriate protective clothing.

Methods and Materials for Containment and Cleaning Up: Sweep up in a method that prevents the generation of airborne dust and place in an appropriate container. Prevent spill from entering sewers and water courses. Do not contaminate surface water. Report releases as required by local, state and federal authorities.

7. HANDLING AND STORAGE

Precautions for Safe Handling: Avoid contact with eye, skin, and clothing. Wear appropriate protective clothing. Use with adequate ventilation. Avoid breathing dust if present. Keep containers closed when not in use. Ensure all containers are labeled.

Do not reuse containers. Empty containers retain product residues and contaminants which can be hazardous. Follow all SDS precautions when handling empty containers.

Conditions for Safe Storage, Including Any Incompatibilities: Store in a cool, dry, well-ventilated area away from bases and other incompatible materials. Keep container tightly closed. Protect from physical damage.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Guidelines:

Non-Hazardous ingredients	None Established
Humic Acids	None Established

Engineering Controls: Use with adequate general or local exhaust ventilation.

Respiratory Protection: Respiratory protection is not normally needed. In operations where exposures are excessive or symptoms occur, an approved respirator with dust/mist cartridges or supplied air respirator should be used. Respirator selection and use should be based on contaminant type, form and concentration. Follow applicable regulations and good Industrial Hygiene practice.

Skin Protection: Wear impervious gloves to prevent skin contact.

Eye Protection: Chemical safety glasses with side shield or goggles should be worn where contact is possible.
Other: Impervious coveralls, apron and boots as needed to avoid prolonged contact. Suitable washing facilities should be available in the work area.
