

LIQUID FERTILIZER

Magnesium 3%

Liquid Magnesium

PRODUCT DESCRIPTION:

MOST FREQUENT USES:

- Foliar applied in most crops and turf grass, alone or in tank mixes.
- Fertigation, to complete other fertilizer solutions.

PRODUCT BENEFITS:

- Easy to mix with fertilizer solutions and pesticides.
- Boost photosynthesis and enhance plant health and color.

CHARACTERISTICS:

- Product type:** liquid fertilizer
- Format:** 2 x 10 L
- Density:** 1,27Kg/L
- pH:** 6, 4
- Storage temperature:** > 3 C

GUARANTEED MINIMUM ANALYSIS:

| | |
|-----------------------------------|------|
| Total Nitrogen (N) | 3,5% |
| Magnesium (Mg) | 3,0% |
| Nutrisorb (Chelating agent) | 1,5% |

INGREDIENTS:

Carboxylic acid, Magnesium nitrate, Wetting agent, Sodium glucoheptonate

APPLICATION RATES:

Generally: 2.5 to 3 L/ha into 100-200 L/Ha of water.
Lawn: 200-300 ml / per 100 m2 into 15-20 gal of water / 100 m2
