Wash thoroughly after handling.

#### **FIRST AID**

If In Eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists get medical advice /

#### DIRECTIONS FOR USE:

#### TURF and LANDSCAPE ORNAMENTALS

To be used as a nitrogen fertilization on golf courses, residential and commercial lawns, sports fields, sod production, other turf areas and landscape ornamentals. When used at the labeled rate, TransFuse N 15-0-7 will provide the equivalent of 1.0 lb readily available nitrogen sufficient to feed turf for a minimum of 10 weeks. If more frequent applications are desired, use proportionately less TransFuse N 15-0-7. TransFuse N 15-0-7 does not contain iron or other micro-nutrients. If needed, micro-nutrients and/or iron can be tank mixed with TransFuse N 15-0-7. When tank mixing TransFuse N 15-0-7 with other products, conduct a jar compatibility test to determine that the products are compatible.

Apply in the spring when turf and landscape ornamentals start to grow, repeat application

every 10 weeks or as needed to maintain growth and quality of turf and landscape ornamentals.

#### Spoon Feeding for Turf Grass:

Use 6.4 fl oz of TransFuse N 15-0-7 in no less than 1 - 4 gallons of water to provide equivalent to 0.075 lb N/1,000 sq ft. Use 12.8 fl oz of TransFuse N 15-0-7 in no less than 1 - 4 gallons of water to provide equivalent to 0.15 lb N/1,000 sq ft.

#### Spoon Feeding for Golf Course Greens and Tees:

IMPORTANT: For best results apply as a foliar spray in early morning or late evening. Use 6.4 fl oz of TransFuse N 15-0-7 in no less than 1 gallon of water to provide equivalent of 0.075 to N/1,000 sq ft. If turf needs more nitrogen use 9 fl oz of TransFuse N 15-0-7 in no less than 1 gallon of water per 1,000 sq ft, Apply weekly or bi-weekly as needed.

#### Landscape Ornamentals:

TransFuse N 15-0-7 can also be used as a foliar feed application throughout the growing season to maintain ornamental growth and quality. Apply 9 fl oz of this product per gallon of finished spray as a foliar application to the point of drip from the plants. Apply every 14 days or as needed to maintain plant quality.

TransFuse N 15-0-7 may be injected during each irrigation utilizing current technology and equipment available to the golf course superintendent. It is recommended that rates be in accordance with soil testing data and with the equipment manufacturer's recommendations

#### VOLUMETRIC CONVERSION:

1 fluid oz. of Eco Calex 1-0-0 8%Ca = 0.0008 lbs. N, and 0.006 lbs. Ca
