Color Enhancing Products

Ver21183

ColorPack®

PRODUCTS FEATURE:

- Nutrient packages that enhance the color performance of your turf or landscape
- Colorants (pigments & paints) that add color to your turf during times when plant nutrition alone is not enough to achieve full color
- Mulch colorants that improve the aesthetics of landscape and ornamental beds

ColorPack®

Color Enhancing Products

Nutrients:

Extreme Green® 16

An extremely pure source of ferrous sulfate heptahydrate combined with manganese sulfate that is rapidly solubilized

Extreme Green® 20

An extremely pure source of ferrous sulfate heptahydrate void of anti-caking agents which enables rapid solubilization when added to a spray tank

Six Iron® 12-0-0

A simple, cost-effective, high quality blend of readily available color promoting nutrients including urea nitrogen and iron sulfate

Six Iron® Plus w/ UMAXX

Combines in liquid form iron from ferrous sulfate and nitrogen from a stabilized form of urea

Six Iron® Plus w/ 3% Mn

The same high quality blend of urea and ferrous sulfate along with 3% Mn derived from manganese sulfate

Mulch Colorants:

Petrifi™

A premium, long-lasting colorant concentrate designed to provide a rich color to new and previously installed pine straw and mulch

Turf Colorants:

Ambient™ Plus

Contains a dark green pigment that provides even, deep color when applied to turf to improve turf appearance and serves as a spray pattern indicator

Lumen™ Lux

A premium and highly effective dark green pigment concentrate designed to enhance turf color and provides excellent longevity for overseed alternative

Lumen™ Phase

A highly effective green pigment concentrate designed to enhance turf color and provides excellent longevity for overseed alternative

Green Tee®

A green turf paint used for the primary purpose of restoring a desirable green color to your dormant, damaged or stressed turfgrass

SP Darken®

A turf paint that contains black pigment which dramatically darkens the turf canopy

SP Green®

A turf paint that contains green, along with a hint of blue pigments to bring the desired color to your dormant, damaged or stressed turfgrass

SP Marking / Paints (Aerosol)

A premium quality turf marking paint in 17 ounce, no clog, no drip aerosol cans. Cans will fit line marking equipment. Visit www.th.simplot.com for available colors
