SPRAY-RITE®

## Water Conditioning Agent and Acidifier For Herbicide Sprays

### PRINCIPAL FUNCTIONING AGENTS

Ammonium sulfate, 2-hydroxy-1,2,3-propanetricarboxylic acid.....	98.99%
Constituents ineffective as a spray adjuvant .....	1.01%
<b>Total.....</b>	<b>100.00%</b>

*At a rate of 4 pounds per 100 gallons of a spray, Spray-Rite provides 0.24% by weight of ammonium sulfate.*

*All ingredients in this product are exempt from a tolerance under 40 CFR 180*

CA Reg. No. 7001-50027

WA Reg. No. 7001-09003

**KEEP OUT OF REACH OF CHILDREN  
WARNING  
HARMFUL IF SWALLOWED.  
CAUSES SKIN IRRITATION.  
CAUSES SERIOUS EYE IRRITATION.**

### PRECAUTIONARY STATEMENTS

Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Specific treatment see First Aid section on this label. Dispose of contents /container in accordance with federal/state/local regulations.

**Personal Protective Equipment:** Wear protective gloves/protective clothing/eye protection/face protection. Take of contaminate clothing and wash before reuse.

### FIRST AID

**IF SWALLOWED:** Rinse mouth. Call a poison center/doctor if you feel unwell.

**IF ON SKIN:** Wash with plenty of water. If skin irritation occurs get medical advice/attention.

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists get medical advice/attention.

**IF INHALED** Assure fresh air breathing.

### ENVIRONMENTAL HAZARDS

Do not contaminate water sources by cleaning of equipment or disposal of wastes.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**Storage:** Store in a cool, dry place in original unopened container.

**Disposal:** Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit [www.acrcycle.org](http://www.acrcycle.org). Decontaminated containers may also be disposed of in a sanitary landfill. Dispose of contents/container in accordance with local/national

regulations. Waste resulting from the use of this product must be disposed onsite or at an approved waste disposal facility.

### GENERAL INFORMATION

SPRAY-RITE is a specially formulated blend of water conditioning and acidifying agents intended for use with a variety of pesticide or nutrient applications that recommend lower pH water and ammonium sulfate as a tank mix additive.

SPRAY-RITE is a water-soluble powder that readily goes into solution.

SPRAY-RITE improves pesticide performance by conditioning and acidifying tank mix water. The ammonium sulfate ingredient prevents hard water antagonism from water impurities such as iron, calcium and magnesium. Certain herbicides fungicides and insecticides perform more effectively at lower pH ranges.

SPRAY-RITE is compatible with all glyphosate formulations and with a range of drift retardants and nonionic surfactants and is approved for aquatic use.

### USE DIRECTIONS

Always add SPRAY-RITE as the first component of the spray mixture. Always read and follow the label instructions indicated on the pesticide or nutrient label. Do not use SPRAY-RITE if accompanying pesticide or nutrient label prohibits the use of water conditioners or acidifying agents.

Slowly pour SPRAY-RITE into the spray tank at the point of maximum agitation. Continue filling while recirculating until all ingredients are thoroughly mixed. Maintain good tank mix agitation at all times until contents of tank are completely sprayed.

### USE RATE

For use as an acidifying agent, use SPRAY-RITE at 1/2 pound increments per 100 gallons of spray solution until the desired pH is achieved.

For hard water conditions or use with glyphosate herbicides that do not contain a surfactant ingredient a rate of 3 to 4 pound per 100 gallons may be required.
