BM40 Scarifier with Collector

BM40 Scarifier with Collector is a professional scarifier with fixed blade collection. Due to the blade fixing system, their replacement does not require the complete disassembly of the transmission and rotor, but only of the worn blades. The high-performance rotor guarantees excellent work in all conditions, even when the cutting edge of the blade is not in optimal condition. In addition, the collector with hydraulic discharge on the ground allows the material removed from the ground to be collected in a single pass. The high ventilation created by the rotor allows it to be used also as a leaf vacuum.

Specification

Model	BM40 - 1600
Number of blades	120
Working width	1.55m
Working depth	0.4m
Height	1.58m
Length	2.00m
Depth	1.25m
Weight	690kgs
Tractor	HP: 40+
PTO	540rpm

Campey supply market leading, innovative turf care machinery worldwide, we're continually researching new techniques and refining existing practices to help turf care professionals achieve perfection.
