

IMANTS

Mini RotoKnife

The Imants Mini Rotoknife is an easy to use versatile root zone management tool that improves aeration, reduces thatch build-up and removes surface water for improved root zone quality and increased play. The machine's versatility comes from the three working positions of the rotor, which allows slitting to a depth of 100mm or shallow slitting at 50mm spacings, with minimal surface disruption and no after-use clean up required. The Mini RotoKnife is available in towed or mounted format and is compatible with most turf trucksters and compact tractors. It is ideal on warm or cool season grasses.

Specification

Working width	1.50m - 1.60m
Transport width	1.80m 3pt mounted / 2.20m towed
Working depth	20mm - 100mm (variable settings)
Number of discs	29 x 200mm Mini Discs, 5 x 300mm Discs
Disc thickness	3mm (200mm disc) 4mm (300mm disc)
Disc spacing	50mm, 100mm, & 300mm
Weight	550kg (towed) 470kg (mounted)
Tractor requirement	25hp – Cat 1: 3pt linkage (mounted) / hydraulic spools
Tractor requirement	50mm ball hitch. Double acting hydraulics (towed)
Operating speed	0 - 12 mph (0 - 20 kph)
Options	Electric actuator to lift and lower when towed

Campey supply market leading, innovative turf care machinery worldwide, we're continually researching new techniques and refining existing practices to help turf care professionals achieve perfection.
