

## IMANTS

# RotoBlast

The RotoBlast is a tractor mounted blower, designed to move leaves, grass clippings, thatch, litter and other unwanted surface debris from important areas. Typically used for clearing greens and tees, fairways, pathways and other sports turf areas. Attached to the 3-point linkage, the powerful blower is mounted on a wheeled chassis to allow contour following while maintaining a constant nozzle height above the ground. The wheels can be inverted to revert to a fully mounted option if required.

## Specification

L x W x H	86.5cm x 1.18m x 98cm
Weight (approx)	190kgs (with PTO 202kgs)
RPM on blower	3,750rpm
Air Velocity	130m3/min
Max chute angle & height	225 degrees / 18cm
Power requirement	25hp
Tractor requirements	Cat 1, 3-point linkage. 540 PTO
Operating speed	0.6 - 6.2mph (1 - 10 kph)

Campey supply market leading, innovative turf care machinery worldwide, we're continually researching new techniques and refining existing practices to help turf care professionals achieve perfection.
