

KORO® BY IMANTS

Speed Harrow

The Speed Harrow is designed for the fast and efficient levelling of sports fields after heavy topdressing, surface cultivation or using the RECYCLINGDRESSER®. Specially designed flute bars help to level the surface by letting the dressing flow through, whilst the 'competition spec' removable light levelling bars are suspended beneath the main frame for rubbing in light dressing on turfed surfaces. The Speed Harrow 4100 is three-point linkage mounted and has a hydraulic lift to the wing units, with the Speed Harrow 2000 coming as a single rigid unit.

Specification

Model	SH 2000	SH 4100
Working width	2.0m	4.1m
Transport width	2.05m	1.76m
Length	1.94m	1.94m
Weight (approx)	150kg	300kg
Power requirement	30 - 45hp	50 - 75hp
Tractor requirements	Hydraulic spool	
Options	Competition decks	

Campey supply market leading, innovative turf care machinery worldwide, we're continually researching new techniques and refining existing practices to help turf care professionals achieve perfection.
