DECREASE YOUR LABOR COSTS
INCREASE YOUR PROFITS

GeoRipper^{T/A} Trenching Attachment

Convert your Makita[®], Husqvarna[®] or Stihl[®] concrete saw into a handheld minitrencher in just five minutes! With added safety in mind, GeoRipper^{T/A} is equipped with the EZ Kart by MiniTrencher, safety bar and dirt deflection system to keep the soil on the ground, fingers away from moving parts and backs from being over-stressed.

Features:

- ✔ Increased productivity over hand-digging
- ✔ Decreased injury over hand-digging
- ✔ Self-sharpening digging teeth for tree roots up to 75mm[3"] in diameter
- ✔ Remove rocks up to 100mm[4"] in most soils
- ✔ Works in all soils like sandy, clay, rocky and loam
