

## Talon 200

The Talon uses tines to remove weeds, moss & dead organic material from turf. The straight tines rotate & oscillate, creating tiny 7mm grooves. Several passes can be made on the same turf area without causing damage. The Talon is ideal for cleaning the grass sward & maintaining plant health.

### Specifications

SKU	161.200.010
Working width (m)	2
Working width (inch)	78.7
Max. Working speed (km h)	12
Working speed (mph)	7.5
Weight (kg)	109
Weight (lbs)	240
Number of tines	222
Number of rows	8
